"Skis production is compound, innovative and technological process. 85% of the total Fischer production is concentrated in Ukraine. In this connection we carried out a tender, which resulted in OntargIT bringing to the project implementation as a competent and experienced partner."

Vasyl Ryabych, Director General,
"Fisher-Mukachevo"

Since it was founded in 1924 the Austrian company has been known for innovation and the latest technologies. Fischer Sports GmbH is a single source supplier in the fields of Alpine and Nordic skiing equipment. Fischer Sports is the global market leader in Nordic skiing and one of the world's largest ski producers. The headquarters are in Ried im Innkreis (Austria) and production facilities are located in Ried im Innkreis and Mukachevo (Ukraine).

Fischer Sports, a leading global manufacturer of sports equipment, implemented ERP system Microsoft Dynamics AX 2012 to complexly automate and effectively manage its operations in the group of companies

- Production management includes the tolling scheme of work with raw materials and holding intercompany settlements. It brought together into single scheme the entire chain, from planning and procurement to manufacturing and sales of finished products.
- Production accounting provides Fischer with reliable information for BI analysis and forecasting on all levels of holding structures.

Implementation's attainments

- Ability to run and maintain new products' lines into the system in shortest time, according to quality and features customers' order requests.
- Planning raw materials consumption for each production order.
- Calculating and manage cost of every production order and goods.
- Ability to work through consignment scheme in production in terms of intercompany.
