Specialties

- Dynamics Solutioning
- X++ development
- Performance fine tuning
- Integration and Data Management
- DevOps branching Strategy
- Code Deployments across environments
- SSRS Reports & Power BI
- Data migration
- Power Platform
- Presales (Solutioning, Estimation and Workshops)

Certifications

- IASA certified – (BITAF)
- MS Power Platform Fundamentals [PL-900]
- MS Power Platform Functional Consultant [PL-200]
- MS Dynamics 365: Finance and Operations Apps Solution Architect [MB-700]
- MS Dynamics 365: Finance and Operations Apps Developer [MB-500]
- MS Dynamics 365: Core Finance and Operations [MB-300]

Domain Experience

- E-commerce
- Energy sector
- Jewelry
- Forestry
- Telecom Services
- Construction

Career Experience

Total 16+ years of IT experience, 15+ years in Microsoft Dynamics. Worked on different versions of **Dynamics incl. 4.0,5.0, 2012 and 365.** Worked on multiple projects with different capacities.

Career Overview & Skills

Technical Skills

- **D365 F&SCM Expertise:** Have extensive experience in General Ledger, Accounts Receivable, Accounts Payable, Inventory Management, Procurement & Sourcing, Production Control, Warehouse Management, Cash & Bank mgmt.
- **Solution Architecture:** Skilled in designing and developing end-to-end architecture solutions in D365, including customizations, extensions, integrations, data migration, security, and reporting.
- **Cloud Integration & Azure:** Experience in Azure services (e.g., Logic Apps, Service Bus, Azure Functions), and Power platform for integrating D365 with other systems.
- **Data Migration:** Experience in data migration activities, including migration of master, transactional, configuration & opening balances data in D365 F&SCM.
- **Development Experience:** Experience in X++, Visual Studio, Lifecycle Services (LCS) and Power platform. Developed new features and extended standard solutions to meet client requirements.
